

Help us Name Your School!

AN INVITATION TO THE ROSEWOOD COMMUNITY

In just a few short months construction will begin on the new Saskatoon Public Schools' elementary school planned for the Rosewood neighbourhood, but first we need your help!

The school will be a centre of education and community activities for your families so we are inviting all families who will be attending the school in Rosewood to offer their thoughts on a name for the new school.

To share your name suggestion log on to <http://spsd.fluidsurveys.com/s/nameourschools/>, choose your neighbourhood and complete the brief survey before May 15. There is a limit of one school name per response, but additional suggestions are welcome by completing another survey for each submission.

All of the suggestions will be reviewed by a committee that will include representatives from your school and neighbourhood communities. That group will prepare a shortlist of possible names for consideration by the Saskatoon Board of Education.

Construction of the new joint-use project is expected to begin as early as this summer for a planned opening of fall 2017. The Rosewood facility will include both public and Catholic elementary schools along with a 90-space child care centre and multi-purpose space for community activities. It is one of four such projects being built in the city.

Thank you for your contribution to shaping the future identity of our school community!
